

Bacon Wrapped Chestnuts

Source: dLife

Broiled chestnuts wrapped in bacon.

Ingredients

1 lb Bacon, cured, raw, thick slices, 12/lb , cut each slice in half, crosswise

1 canned water chestnuts , drain well (8 oz can)

Directions

1 Slice each piece of bacon in half and wrap around a water chestnut.

2 Skewer with toothpick to hold in place.

3 Broil in toaster oven or conventional oven, turning every 5 minutes, until the bacon is evenly cooked. This can take up to 25 minutes.

Additional Information

Thick slices of turkey bacon can be used as well. These chestnuts are broiled in the oven, not roasted "on an open fire," but they make a great holiday appetizer anyway!
